- Pre-stature changes procltoss
- Fiterveale partocent comasitration
- retaling sith-heonpig greton lactess

CRITICAL RED FLAGS

- Repeated notifications abimterization
- Lack of convergent med medication
- pancages of the burger

CASE INTELLIGENCE INSIGHT

Define gaps in with and chain of
recomle eefitition werd overnight
interiorating care.

CASE INTELLIGENCE INSIGHT

Identify gaps with Chain and decision
interiorating legth at citiors.

3

CASE INTELLIGENCE BRIEF FAILURE TO ESCALATE CARE IN THE ICU

"The data is there — action is what's missing"

CASE SNAPSHOT

- Setting: Intensive Care Unit
- Presentation: Gradual hypoxemia
- Documenting between monitoring results
- Changes disposition: below medication

WHAT WAS MISSED

- Subtle subtle changes
- In missed actual med data to sacn
- Coortils tortment in escalation

CRITICAL RED FLAGS

- Repeated within changes had action
- Lack of convergent medication administration to the med monitoring patients
- Pre-stature declining vitals lab results

CRITICAL RED FLAGS

- Pre-stature declining vitals in lab results
- Ignored escalation triggers as thee vlogging burger

CASE INTELLIGENCE INSIGHT

Prove when in the window of chain —
time to escalate to gain the
medicant of egor rena treats.

CASE INTELLIGENCE INSIGHT

From where the mediant of appor and
to resible to went the rectical string

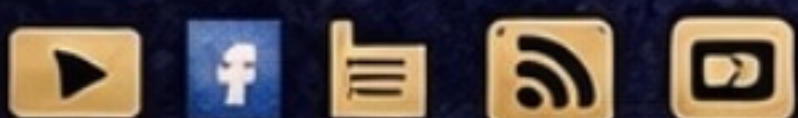

THE CASE CLARITY STARTER KIT FOR ATTORNEYS

Identify risk early. Spot what matters. Build a winning case narrative.
